Leo White

Objective: Aspiring Computer Science professional seeking to gain industry experience and develop technical skills through diverse work opportunities. Focused on expanding my expertise in software development, artificial intelligence, and team collaboration to support long-term career goals in tech.

Technical Skills:

Languages:

- Python, C++, Java, C#, HTML
- Experience with Large Language Models (LLMs), Named Entity Recognition (NER), and Natural Language Processing (NLP)

Tools & Technologies:

- Visual Studio Code, Emacs
- Google Cloud, Firebase, MongoDB, Flask

Soft Skills:

- Teamwork and collaboration from extensive experience in organized sports and work environments
- Strong problem-solving and quick learning abilities with an adaptive mindset
- Excellent communication skills, enabling effective collaboration in dynamic teams
- High level of discipline and dedication to consistently meet objectives

Professional Experience:

Ocean Friends, Seattle, WA – Intern

Jun 2024 – Current

- Played a key role in developing a patient bot integrated into an app that manages medical records (Diet, Behavior, Sleep, Speech) using LLMs and NER techniques.
- Collaborated with a small team to enhance bot functionality, integrating APIs with Google Cloud for seamless data handling.
- Transitioned to backend scheduling, gaining expertise in Python, Firebase (for real-time data management), and MongoDB (for flexible document storage), while also utilizing Flask for API development.
- Expanded technical skills in AI, API creation, and team collaboration throughout the project lifecycle.

Pacific Courts, Newcastle, WA – Trainer

June 2019 – 2022

- Volunteer trainer for children (grades 2-6), teaching skills and discipline in basketball.
- Created and maintained a supportive learning environment while fostering teamwork and respect.

Central Café and Juice Bar, Snoqualmie Ridge, WA – Barista

October 2023 – June 2024

- Prepare food and beverages, assist in managing daily operations, and maintain a clean work environment in a family-owned business.

Mod Pizza, Snoqualmie Ridge, WA – Squad Member

August 2022 – September 2023

- Performed various tasks including food preparation, customer service, and maintaining kitchen efficiency.

Adam Gorski Landscapes, North Bend, WA – Laborer

June 2021 – August 2021

- Engaged in physical labor tasks such as material movement and trenching, consistently meeting daily work quotas.

EDUCATION

Seattle University, Seattle, WA

Bachelor of Science in Computer Science, Expected Graduation: 2025

- Active member of the AI & Machine Learning Club
- Exploring various fields within computer science, including artificial intelligence and software development.

Mount Si High School, Snoqualmie, WA

Graduated 2023 with High School Diploma and Associate Degree from Bellevue College

- *Maintained a GPA of 3.6 or higher throughout academic career.*
